A FAIR OUTLOOK.

What the Architects Say of the Approaching Building Season.

Although there are many rumors about large buildings to be erected this season, the architects are not ready to tell of the materialization of important schemes. Many of them may fall through, they say, a fair outlook. Building in towns throughout the State is occupying the time of several of the city's architects, and these say the prospect for out-of-town building is more encouraging than in Indianapolis. Yesterday it was reported that a fourteen- | be fined in any sum not less than \$25 nor story apartment house was to be erected, The foundation for the report seemed to be a three-story apartment house to be built by S. SALE OF A LARGE PLANT

JUDGE BAKER'S IMPORTANT ORDERS REGARDING M'DONALD'S ESTATE.

Electric Company's Liabilities About \$1,600,000-An Appraisement of \$700,000 Expected.

Judge Baker, in the United States Circuit Court, yesterday afternoon, made some important orders regarding the sale of the Fort Wayne Electric Company and in the settlement of the R. T. McDonald estate. He ordered that the sale of the plant of the electric company shall begin on April 18, and shall continue from day to day until it is sold. It is expected that the plant will be appraised at about \$700,000. The total liabilities of the company amount to about \$1,600,-000. Of this sum, \$900,000 represents the actual debts of the company and the balance is the amount for which the company is security. It is expected that the principals on these notes will pay off a portion of the amount, so that the company will have to pay about \$300,000 as security, and thus the actual liabilities will be about \$1,200,000. It is understood that a company is being organized in Fort Wayne to purchase the plant

and operate it. An order was also made to return to the administrator of the estate of R. T. McDonald a note given to the deceased for \$255,000. This note was given to the General Electric Company in a speculation. The first mortgage bonds on the Fort Wayne Electric Company plant are held by the General Electric Company and are for the sum named in the note. McDonald agreed to buy in these first mortgage bonds and gave his note for the full amount to the General Electric Company, with \$490,000 worth of stock in the Edison Electric Company, of New Orleans, as collateral security. The court ordered that the General Electric Company should retain his stock and he found that its actual value to them was on the mortgage, thus leaving a first mort- Voluntary proceeds of the sale. Judge R. S. Taylor stated that a company s now being organized in Fort Wayne to purchase the plant and keep it in that city. The court was at first disposed to require a ash payment, but Judge Taylor requested that some arrangement be made whereby time payments might be made in order to assist the local company. It was then arranged that one-fifth should be paid down and each additional fifth should be paid at the expiration of every three months, thus giving one year in which to complete all

REFUSE IT A FRANCHISE.

Council Committee Considers Chenowith Company Petition.

The Council committee on contracts and Electric Light Company. What the discussion was in detail it was impossible to ascertain, but the result of the deliberations was that the committee will recommend that the Council refuse to grant the franchise. The committee felt that, as the city must make contracts for lighting the city next year, and the Chenowith company does not make any specific statement as to what its rates twenty years' franchise, it will be inadvisable to bind the city to buy lights from the company for such a long time as the granting of the franchise would virtually do. It is hoped by the committee that within the next few years the city will own its own lighting plant, and by granting franchises to the several new suburban companies the city will be unable to furnish light in these The committee will recommend the granting of permission to Bartholomew D. The club programmes at the Young Women's Christian Association given the last Friday evening of each month have proved of unusual interest. The March programme will be finished by an address by Charles R. Williams, of the News. The subject will be "Life and a Liberal Education." These lectures are free of charge to all interested in the association. A special Easter service will be held at the association rooms Sunday afternoon at 4 o'clock.

Factory Inspector Commended. Factory Inspector McAbee has received a large number of letters from manufacturers commending his annual report which was recently sent out. His recommendations have generally met with approval.

American Bock Beer. Spring time is the season of the year that makes one and all who indulge themselves in a spring tonic think of Bock Beer. Thought being father of the act the first Estella Adams, Miss Maggie Walsh. Tenors: impulse is to sample the different brews of this delightful beverage; that is to say, if brock. Basso: Mr. Edward J. Lauth. Organit being father of the act the instance impulse is to sample the different brews of this delightful beverage; that is to say, if it is properly brewed. There is as much impulse is to sample the different brews of it is properly brewed. There is as much difference in the quality of the different Bock Beer as there is between pure spring water and a city's sewerage. Good, pure, Bock Beer does not injure your health by ruining your stomach with injurious drugs and chemicals, but, on the contrary, stimulates, invigorates and gives a healthy tone to the whole system. It has been proven conclusively by use as well as analytical tests made by leading chemists from the cities of Indianapolis, Chicago and New | * York (which appear of record in the Su-perior Court of Marion county) that the American Brewing Company's product perfectly brewed, made from select malt and ops without the use of coloring dyes and injurious foreign matter to give it the appearance of the genuine article, so often resorted to by breweries who consider the mighty dollar of more importance than an honest reputation and the health of its constituents. The American Brewing Company's Bock Beer will be placed on sale in

the leading saloons at Indianapolis to-morrow. It is also bottled by Jacob Metzger for house consumption. Telephone 407. Big Four. Quickest route to Denver and the Pacific coast is via Peoria division of the Big Four
